

## GLASS CLEANER

### DIRECTIONS:

1. Insert one entire Pack into bottle.  
**DO NOT CUT OR TEAR OPEN PACK.**
2. Fill bottle with 1 quart (946ml) of water.
3. Wait approximately 1 minute and gently shake.

Spray on surface to be cleaned. Wipe off excess product with a clean, dry paper towel or lint-free cloth.

### Window Cleaning

#### When cleaning automobile windows and windshields:

- Use 1 or 2 misting sprays on the windshield.
- Use 1 misting spray on side windows.
- Wipe and remove with a clean cloth.

#### When cleaning windows or glass:

- Use 1 misting spray per 3-4 square feet of surface area.
- Wipe and remove with a clean cloth.

\*Do not overuse the product. This will result streaking on windows.

Yield per Pack: 1 Quart  
Solubility in Water: Complete  
pH at Use Dilution: 6.0-8.0  
Color: Blue  
Fragrance: Fragrance Free  
Phosphates: None

### Overview

Our Glass Cleaner is an extremely effective cleaner for glass and hard non-porous surfaces. Traditional products normally contain ammonia or alcohol in their formulation. These ingredients help with drying of the product off of the glass but do not help clean glass. Instead, it is hazardous to the environment and to people. This product is formulated with a blend of environmentally friendly ingredients, making it safe to use for both people and the planet. This high performance formulation makes the product a more effective cleaner, which means it will require on average 50% to 60% less product to clean the same surfaces.

- Do not handle Packs with wet hands.
- Do not remove Packs from container prior to use.
- Do not expose Packs to subzero temperatures.
- Do not cut Packs open. The Pack is 100% soluble in water.
